

FUZZ

Fuzz came to SNAP in June 2010 from Whitecourt pound where she was found as a stray. Fuzz likes to say hello with her gentle mew when you walk into a room and curl up on your lap while sitting on the couch watching TV.

In foster care, one of her favourite places to be was high up on her condo where she observed the activity around her. While she did well with adults she seemed to be stressed when exposed to the other cats and dogs in the house and may do better if she is the only pet in the home.

Fuzz requires an owner that will be committed to continuous grooming of Fuzz's high maintenance coat. Although she has a couple of sensitive areas, fortunately Fuzz enjoys being brushed. We found that brushing was a good way to provide positive daily interaction with her while at the same time managing her demanding coat.

Date-of-birth: Estimated May 2007

Gender: female/spayed

Special Needs: Diabetic

Good with cats: Likes to be boss

Good with dogs: tolerated

Good with kids: Don't know

Fostered: Yes
